BCCF E-MAIL BULLETIN #138

Your editor welcomes any and all submissions - news of upcoming events, tournament reports, and anything else that might be of interest to B.C. players. Thanks to all who contributed to this issue.

To subscribe, send me an e-mail (swright2@telus.net) or sign up via the BCCF webpage (www.chess.bc.ca); if you no longer wish to receive this Bulletin, just let me know.

Stephen Wright

[Back issues of the Bulletin are available on the above webpage.]

HERE AND THERE

Pfalz Open (February 16-23)

Leon Piasetski is continuing his modest chess comeback. He is currently playing in a 9-round Swiss in Neustadt an der Weinstraße, a city in the Rhineland region of Germany. The two hundred player tournament includes eighteen GMs and four players over 2600; after five rounds Piasetski has 3.5 points. The only available game of his to date is his third-round loss to Romanian GM Marius Manolache: Piasetski reaches a pawn-down rook ending which should be drawable, but allows his king to be cut off. Presumably time trouble was a factor (40/2 with the rest of the game in an hour).

Tournament website: <http://www.pfalzopen.de/startseite/2/en/>

Fraser Valley Regional (February 17) and **Vancouver Regional** (February 16)

Results from these two Chess Challenge qualifying events: <http://www.bjdy.com/juniorchess/results.html>

Richmond Winter Festival (February 8-9)

Due to the initiative of Norm Conrad, chess was one of the featured events at this year's Richmond Winter Festival. It was included, along with Chinese chess and Go, as a "brain game"; all three games were offered in continuous simultaneous exhibitions.

Moscow Open (February 2-10)

An occasional B.C. resident and co-winner of last year's Jack Taylor Memorial, Valeriya Gansvind took part in the B Section of the Moscow Open, a 9-round Swiss with over four hundred participants in that section alone. She scored 6.0/9, finishing fiftieth after tiebreaks. Thanks to Roger Patterson for pointing this out.

MONASHEE OPEN (February 15-17)

A feeble turnout of only seven players for the first Vernon Monashee, perhaps because of the avalanche closures this week on our highways.

Nevertheless everyone came back with at least one great result, and at least one groaner too -- such is chess.

The experiment with one round on Friday evening was not well received as it meant an extra day of travel for the valley players, and more byes than usual in the first round. Dave Moore once again won an Okanagan tournament, undefeated with one draw and one bye with 4/5; Grant Rice parlayed his bye and only loss to Dave to take second with 3.5/5. The new playing site is quiet and central, and we will use it again whenever possible. Stay tuned for the next of five more Okanagan events, in Vernon on March 15 & 16 (note the date change from an earlier posting); check the BCCF web page at www.chess.bc.ca for

updates and details on future Okanagan events in Vernon and Kelowna.

CHESS ON THE EDGE: A PRE(RE)VIEW

These are halcyon days for anyone interested in Canadian chess literature. Last year saw the publication of *Nick's Best*, a collection of games by IM Bryon Nickoloff (see Bulletin #130); now, Bruce Harper's long-anticipated book(s) on Duncan Suttles, *Chess on the Edge*, is currently at the printers and will be available in about a month. The following review is based on the computer files from which the books will be published (by the Chess 'n' Math Association, who coincidentally also produced *Nick's Best*).

One of my fields of study at university was musicology (in its broadest sense, the study of music). Leaving aside the practical disciplines of composition and performance, there are two main subdivisions to the academic study of music - history and theory. Music history concentrates on the relationships between works of art, what influenced the composer, how the music was received within society at the time, and so forth. Music theory concentrates on the work of art itself - its form, structure, how it works.

If chess were equated with music, the Suttles books would fall into the realm of music theory. The emphasis is on the games themselves, to a large degree taken out of their historical context. There are no crosstables presented, no tournament records. The one-page biography is almost perfunctory in its shortness; for those seeking insight into Suttles the man, the five-question interview will not add to their understanding. But this misses the point: *Chess on the Edge* is not intended to be a historical work. Instead, it seeks to elucidate the games and chess style of a Canadian chess legend.

Co-authored by Bruce Harper and Yasser Seirawan, and with contributions by Lawrence Day and Dutch IM Gerard Welling, this obvious labour of love is divided into three volumes. Volume one presents one hundred of Suttles' games, heavily annotated and organized by theme. These introduce and demonstrate various aspects of Suttles' style, which the authors acknowledge to be "murky" and often difficult to comprehend. The remaining two volumes contain all of Suttles' other extant tournament games, organized by *ECO* code and annotated, along with the first ten moves of each game contained in volume one. There are also a total of fourteen supplemental games (i.e., not played by Suttles) scattered through the three volumes. While obviously designed as a set, the first volume stands alone as a games collection complete in its own right; for those wishing to enter the "Twilight Zone" of volumes two and three, acclimatization via the first volume is strongly recommended.

The Prologue states that the "main goal of the first volume is to help the reader understand Suttles' unique style, but there may be instructional or inspirational value in this volume as well." This is quite an understatement. Yes, the elements of Suttles' style are examined, but there is also much discussion of standard middlegame themes, along with references to military history and flights of a philosophical nature. In one sense the volume can be viewed as a case study, one specific answer to the question "how does one win a game of chess?" Since the time of Steinitz it has been accepted that to win at chess, the opponent has to make a mistake. How is this to be accomplished? Sometimes errors are unforced, but

more often the opponent has to be pressured, or given the opportunity to go wrong. One way of doing this is to take the opponent out of his comfort zone, to present him with new and unfamiliar problems to solve. In the Kasparov age of computer-assisted preparation this consists of producing novelties between moves fifteen and twenty-five or so; Suttles adopted a more radical version of the same approach, producing 'novelties' in the first few moves of a game, or psychologically-unhinging his opponents with weird maneuvers. This doesn't mean that Suttles was always successful - the experiment could backfire - but it's certainly fun to watch. [Incidentally, given that many players these days prepare using strong computer programmes, which play whatever works without a thought for aesthetics or perceived weirdness, one wonders whether current players are less 'freakable' than those of Suttles' time.]

The annotations themselves are lively and engaging. They are word and explanation oriented (which is not to say that deep analysis and variations aren't entered into when the position requires it), making the games accessible to a wide audience. This is also a practical necessity, since much of Suttles' chess is psychological in nature and unyielding to *Informant* symbols. Copious diagrams aid the reader's understanding. Volume one has a wonderful Foreword by Lawrence Day (one hopes he continues to publish his recollections), also two entertaining Prefaces by the co-authors. There are also two appendices; the first discusses the 'rat' nomenclature, the second the Suttles' System, which elsewhere has been referred to as the 'Great Snake.'

There are a few historical inaccuracies, including three on the biography page. We are told that Suttles was fifteen when he learnt how to play chess. Given that he turned fifteen in December of 1960, this would make his participation in the 1961 Canadian Championship rather miraculous. Instead, *CCCA Bulletin* #299 (April 1962) has a short autobiographical note from Suttles ("I am 16 years old and began playing chess 2½ years ago.") This would make him thirteen at the time he took up chess. The biography states that Suttles' 1981 comeback event (in which he tied for first with Tony Miles) was the Western Canadian Open, when in fact it was the FIDE-rated International which followed the WCO. Also, Suttles' last tournament game wasn't against Tyler Johnson in the 1984 Vancouver Futurity, but versus Fatos Muço at the Thessaloniki Olympiad later that year.

The *Encyclopedia of Chess Openings*

is referred to throughout the three volumes, but we are rarely told which edition has been consulted (the five volumes of *ECO* have been revised between three and five times each, and vary considerably between editions). Citation of previous published annotations is variable: *Informant* volume numbers are invariable given, or month and year for *Chess Canada*. But for other sources (*Canadian Chess Chat*, *Northwest Chess*, *B.C. Chess Reports*), the date of publication is generally lacking, and in some cases an author's annotations are mentioned without any citation.

The volumes are provided with player indices, while volume three also includes an event index. The main tournament heading is by location, which means that local events (unless they happen to be a championship of some sort) are lumped together under one heading without further differentiation. Unfortunately one of B.C.'s most famous tournaments is called Vancouver 1975, which makes it impossible to determine which of the eleven games listed in the index are from that specific event (for the record, the games versus Tjebbes, Chow, and McLaren are from the Labour Day Open, that against Oszvald from the B.C. Open). The indexing of the supplemental games seems to have a strange effect - the listings for B. Harper are particularly bizarre. As noted earlier, volumes two and three are arranged by *ECO* code. When there is a reference to another Suttles game as part of the annotations, one is given the standard game header but not the page where the game can be found. This makes it a little difficult to find the referred game: either the section with that *ECO* code has to be browsed (and some of them, e.g., B06, are rather large), or the index has to be consulted.

American spelling is used throughout, which this reviewer finds strange for a book published in Canada about a Canadian icon. The occasional typographical error does not detract from the overall readability of the text. There is a section of photographs, and two line drawings of rats by Laura Harper. At this point I can't comment on the overall production values or binding (hard cover), but judging by the wonderful job the

Chess 'n' Math Association did on *Nick's Best*, there shouldn't be any problems in that regard.

Despite these minor quibbles, *Chess on the Edge* is a worthy addition to the (growing) literature on Canadian chess. For Suttles' aficionados and those interested in chessic Canadiana all three volumes will be required reading; for the rest of the world, volume one stands on its own as a games collection and instructional work, while the other two volumes might be more of an acquired taste.

(Chess 'n' Math is offering a pre-publication discount for orders of all three volumes - see <http://chesstalk.com/boutique/store/>)

BOOK LAUNCH

March 15, 2008

Vancouver Bridge Centre, 2776 East Broadway, Vancouver B.C.

Chess on the Edge

is a three-volume work which contains all of Canadian Grandmaster Duncan Suttles' tournament games found as of the time of writing. The first volume contains 100 games organized by theme ("The Suttles Style", "Pawns", "The Center", etc.), plus 7 supplemental games. The second and third volumes contain another 513 games organized by opening (219 games in Volume 2, 294 games in Volume 3), plus 3 and 4 supplementary games, respectively.

All the games are annotated in depth. Each volume is about 350 pages, for a total of about 1,000 pages. There are 628 diagrams in Volume 1, 585 diagrams in Volume 2 and 472 diagrams in Volume 3.

You are invited to join us at a book launch for *Chess on the Edge* on March 15, 2008. The following events are planned:

1. At 12:00 noon, a hot dog and pop/juice lunch will be provided for juniors.
2. At 1:00 pm, Grandmasters Duncan Suttles and Yasser Seirawan will give a tandem (alternating move) simultaneous against juniors rated under 1800.
3. At 3:30 pm, Grandmasters Duncan Suttles and Yasser Seirawan will give a tandem (alternating move) simultaneous against adults, selected juniors and juniors who won or drew in the first simultaneous.
4. At 7:00 pm, a social gathering (business attire) will convene, for both chess players and non-chess players. Food will be provided. Chess players may continue to play in the front area of the Bridge Centre.
5. Pre-ordered books will be available for pickup and signing. Books may be ordered at a pre-release discount at <http://chesstalk.com/boutique/store/>.
6. The books, s-chess kits, sets and boards will also be available for purchase.

All of the above is covered by the purchase of one ticket per person for \$10.00 each. In the evening, there

will be a draw for door prizes.

Reserve your ticket at <http://www.suttlesbook.com/>

RANDOM THOUGHTS

While some may find the jottings of this editor rather random, this is in fact the title of a new (nonchess) book, compiled by 2006 B.C. co-champion Howard Wu.

Details: <http://www.trafford.com/07-2847>

33rd PAUL KERES MEMORIAL

Dates Friday, May 16 to Monday, May 19, 2007

Location Hungarian Cultural Centre, 728 Kingsway, Vancouver BC

Sections Open, Under 2000, Under 1600

- Time Control** Game/90 + 60 second increment or game/150
- Rounds** Open: 7 Rounds; U2000, U1600: 6 Rounds
- Round Times** Friday 5:30 (Open Section only); 10, 5 / 10, 3:30 / 9, ASAP
- Prizes** Based on entries. Unrated players may play in any section, but are only eligible for prizes if they play in the Open section. Unrated players who place in the other sections will have their entry fee returned.
- Entry Fees**
- | | (Open / U2000 / U1600) |
|-----------------------------|------------------------|
| Before or on March 28, 2008 | \$110 / \$95 / \$80 |
| Before or on May 2, 2008 | \$130 / \$110 / \$90 |
| After May 2 | \$150 / \$125 / \$100 |
- Discounts**
- | | |
|-------------------------------|---------------------------------------|
| Born after May 20, 1988: | 50% (proof of date of birth required) |
| Born before May 20, 1943: | 50% (proof of date of birth required) |
| FIDE rated players w/o Titles | 25% |
| FIDE Titled Players | Free entry |
- Surcharge** \$25 extra for those players who wish to play in the Open Section, but who have a lifetime highest rating under 2000
- Registration** please mail cheques (payable to BCCF) to: British Columbia Chess Federation, PO Box 15548, Vancouver, BC V6B 5B3. Please do not mail entries after May 9, instead register at site.
- On-site**
- Open Section: Friday, May 16, 4:00 to 5:00 pm
U2000 and U1600: Friday, May 16, 4:00 to 10:00 pm
 Saturday, May 17, 9:00 to 9:30 am
- Those registering after the respective deadlines (5:00 pm Friday for the Open, 9:30 am Saturday for the other sections) may receive pot-luck pairings or a half-point bye in the first round**
- Miscellaneous** CFC rated, Open Section also FIDE rated; half-point byes may be requested for all but the last round; sets and boards provided, **please bring clocks**.
 The BCCF Annual General Meeting will be held between rounds on Saturday, May 17.
- Contact** Stephen Wright, swright2@telus.net, (604) 221-7148

Flex RR

From Ben Daswani:

I will be organising a double-RR in Vancouver. It will be a flex event. Everyone will have everyone else's contact information and players play their games where/whenever they and their opponents agree. For the sake of competitiveness, this event will be open to players rated from 1800-2200. The entry fee is \$3 (to pay for the CFC rating fee). There are no prizes. So far two players are signed up. Both are in the 2000-2100 range (I'm one of them).

Email bdaswani@interchange.ubc.ca if you're interested.

Leap Year Open

Dates: February 29 – March 2, 2008

Place: Vancouver Bridge Centre, 2776 East Broadway (at Kaslo), Vancouver

Rounds: 5

Times: February 29th, 6 pm; March 1st and 2nd, 10 am and 3:30 pm

Type: regular Swiss

Time Controls: game/90 with a 60 second increment (digital), or game/150 (analog)

Byes: Rds. 1-4

Entry Fee: adults \$35, masters/juniors/seniors \$25 (non-CFC members add \$10 for tournament membership)

Prizes: \$\$BEN

Registration: in advance or at site 5:30 – 5:50 pm, February 29th

Tournament Director: Stephen Wright

Miscellaneous: two sections, Open and U1600

For more information please contact the organizer: Stephen Wright: 604-221-7148, swright2@telus.net

Kalamalka Spring

5 Rounds Sat & Sun March 15 & 16 *(please note change of date)*

Place : The People Place 3402 27th Ave. Vernon, BC *(please note address correction)*

This is a new site for our tournaments; across the street from the Tiki Village Motel and next to the Canadian Wholesale Club *(note correction of this name)* .

If coming from Kelowna it's a left turn at the first traffic light when you get to Vernon, two blocks west towards Okanagan Landing.

Close to restaurants and accommodation:

Tiki Village \$79; Travel Lodge \$75 double occupancy with fridge and microwave.

Midway Motel and Hillside Motel are several blocks away for \$69.
