Oliver Gonzalez Somoza Memorial (October 9-17)

Leon Piasetski finished with 5.5/9, which left him tied for thirtieth in the 165-player field. The tournament was won by Cuban GM Omar Almeida Quintana with 7.5, a half point ahead of GMs Oleg Korneev (Russia), Sergey Fedorchuk (Ukraine), Renier Vazquez Igarza and Herminio Herraiz Hidalgo (both Spain), and IM Pablo Almagro Llamas (also Spain).

WORLD YOUTH CHESS CHAMPIONSHIPS (October 20 - 30)

Eight rounds have been played at the WYCC, taking place at the Greek resort of Porto Carras. The big Canadian news is the play of Victoria's Jason Cao, who has given up but a single first-round draw in amassing a 7.5/8 score: he leads the 157-player U10 Open section by a full point with three games remaining. Other Canadians having fine performances include Jackie Peng, currently fourth in the U12 Girls with 6.5; Roman Sapozhnikov, who has 5.5 and sits eighteenth in the U16 Open section; and Andrea Botez and Kelly Wang, both with 5.0 in the U08 and U10 Girls' sections respectively. The tournament [website](#) has results, video, photos, PGN of games from the top boards in previous rounds and live games; unfortunately the U08 and U10 sections are not being broadcast live. The best summary of Canadian results can be found at the [Chess-Results](#) website, and there's also the team Canada [blog](#).

BUDAPEST TEAM CHAMPIONSHIP by Michael Yip

The Rakosliget team (division II) invited me play on their team which I am happy to a part of. The home games were hosted in a way off community centre about an hour away from my neighborhood. The first home match was quite exiting before it even started. The team began congregating outside the site but no one seemed to have the key. To make matters worse, our top board defaulted his game but still we won the match. I achieved nothing in a symmetrical English and settled for a lame draw.

The second match was also exiting. All our players were not allowed to sit at our boards until our top board player arrived as there was a team penalty in place. At last he arrived about twenty minutes late, and so the match begun with all players spotting our opponents a twenty-minute lead on the clock. We lost the match and I contributed another half a point from a lost position.

The game went in an awful fashion with me blundering a pawn in the opening after doing some passive drifting. The game took an exiting turn when my opponent played quite passively and allowed me to bluff my way out from an exchange and pawn down position. In the final position my opponent played 40...h6 and offered a draw in reply to my 40.Qe6!?! bluff.

1968 B.C. - WA RADIO MATCH

One of the more unusual B.C. - Washington contests took place in 1968 - unusual, in that it was conducted by radio. Willie Skubi (Washington) set up the match, using the facilities of ham radio operators John Solbakken (Seattle) and Bob Eldridge (Vancouver). Seattle had requested the strongest possible opposition, so Eldridge lined up Duncan Suttles, Bob Zuk (replacing Elod Macskasy on short notice) and Tim Anderson. The Vancouver players won the match fairly easily, with a final score of 2.5-1.5.

"The game on board 1 went on after the other two had finished. Pupols was in trouble with a bad position and six moves to make in 3 minutes to the time control. He made them with full 40 seconds to spare, but by that time was dependent on some kind of a swindle to pull it out of the fire"

". . . on board 2 Bob Zuk mounted a crushing attack with a remorseless squad of peons pushing Jeff Fox back into his field . . . Bob noted afterwards: 'I think Black's 6-7-8 moves premature - he should castle. On move 17 Black should take the pawn. After White's 18th Black is lost.'"

"On board 3 Chris Corwin playing White considers he had an advantage which he let slip. Tim Anderson offered a draw around move 16 or so, and one was agreed on move 25 after his original 25th move had been incorrectly communicated . . . Both players were rather short of time, with 15

mins and 24 mins respectively for another 25 moves. The time control was 50 in 2."
