## HERE AND THERE

### **World Open** (June 29 – July 7)

Held at Arlington, Virginia and attracting a field of twelve hundred players, this year's World Open resulted in a ten-way tie for first, with Varuzhan Akobian taking the title after a final Armageddon game. A number of Canadians participated in the various sections, including Janak Awatramani, James Chan, Jofrel Landingin, Juni Caluza, and Gilles Bruneau from this province. The top Canadians were Leonid Gerzhoy and Bindi Cheng, part of a six-way tie for the U2500 prize; they each earned \$462.50 for their 5.5/9 scores. [Tournament site](#)

### **DC International** (June 27 – July 1)

Immediately preceding the World Open at the same site and in fact overlapping the World Open's two-weekend schedule, the DC International was won by India's Parimarjan Negi with 7.5/9 points. In clear second was Bindi Cheng, who missed a GM norm on a technicality but gained \$1,200 for his efforts. Also winning money was Leonid Gerzhoy, while the seventy-one player field also included James Chan. [Tournament site](#)

### **Edmonton International Chess Festival** (June 23 – July 1)

Now in its eighth edition, the International section of this year's festival was also the strongest yet, including GMs Lazaro Bruzon, Nigel Short, Victor Mikhalevski, and Eric Hansen; among the six other norm hopefuls was former B.C. Champion Maxim Doroshenko. Highest rated was Bruzon and he ran away with the tournament, scoring 8.0/9 to finish two points ahead of second-placed Nigel Short; Richard Wang was third with 5.5. (The festival actually used the football scoring system of three points for a win, one for a draw, but as this only seems to make a difference in terms of tiebreaks this report will stick to the traditional method.) Doroshenko had a rough time of it (he hasn't had much practice of late) and scored two wins and two draws; however, the wins were against two of the grandmasters. He also had his chances against Richard Wang in the last round, but eventually lost after a complicated struggle.

The festival also included two other events, an International B Section and a Reserves Section. The B Section was a six-player round robin, won by German FM Christoph Zill with 4.0/5, a half-point ahead of Vladislav Rekhson. Lowest ranked was Alexandra Botez, who finished in fifth place with one point. Presumably this was a good warm-up for the Reserves, held on the last weekend of the festival as a twenty-one player, five-round Swiss. Here Alexandra took first place with a perfect

5.0/5; Zill was second with 4.0 points and John Doknjas and Arnold McKay tied for third. Also in the field from this province were John's brothers Joshua and Neil. [Festival website](#)

White is up a healthy pawn, while all Black has been able to do is advance his queenside. The pawn formation on the a- to c-files should be familiar as a potential breakthrough (as discussed in Dan Scoones' Browsing for Endgames column in [Bulletin #261](#)) and would certainly be recognized as such by a player of Hansen's calibre. Perhaps the presence of knights confused his calculations. However, the continuation was 37.c3?? a3! 38.bxa3 b3 39.axb3 cxb3 0-1

**EAC #23** (June 29-30)

Organizer and host Eugenio Alonso Campos won the latest EAC tournament with 4.0 points, a half-point ahead of second place Peter Yee and Luke Pulfer. Seven players participated in the five-round Swiss. [Results](#)

## June Active (June 23)

Daniel Salcedo

A perennial winner of these events, Mayo Fuentebella was also a participant in the June Active but for once had an off day, losing to Omar Jessa (who thereby won the upset prize) and eventual winner Daniel Salcedo in the last round. Salcedo gave up but a single draw to Butch Villavieja on his way to the first prize, just ahead of three players tied for second: Jason Cao, Jack Cheng, and James Chan. Jill Ding took the U1800 prize, Victor Zheng the U1500, and the U1200 went to Navid Samiei. Held as usual at the Vancouver Chess School, the tournament attracted forty-nine players.

## Las Vegas Chess Festival (June 6-9)

In reporting on the Las Vegas Festival in our last issue we overlooked the exploits of one B.C. player, junior Jay Sawant, who tied for first with a perfect score in the [Under14 Reserve Section](#), and was also the top U1000 player in a [puzzle-solving competition](#). Belated congratulations! Further details at Michael Yip's [CanadaChessNews](#) site.

## 100 YEARS AGO: FRANK MARSHALL IN VICTORIA

"Mr. Frank Marshall, the United States champion chess player, gave an exhibition of wonderful skill at the Camosun Club yesterday. The champion played nine men in the afternoon and seventeen in the evening, playing the boards simultaneously, and lost but two games. Commenting on the class of Victoria chess players Mr. Marshall stated that he had never met better players since he left Montreal. On his arrival in Victoria yesterday, Mr. Marshall was taken for a drive about the city and was afterwards entertained at the Camosun Club by the members of the Chess Club and the Camosun Club. Yesterday afternoon Mr. Marshall met nine local men. He defeated eight and drew

with one, his successful opponent being Mr. Gibson, who should have won. Mr. Gibson allowed himself to be drawn into a perpetual check and thus received a draw instead of a win.

In the evening Mr. Marshall won from all his opponents with the exception of Mr. J.T. Meyers, who won his game, and Messrs. Benson, Marchant and Parsons, who managed to obtain a draw. The champion's opponents were: Messrs. Lombard, Marchant, Meyers, Dodd, Pelly, Fredriekson, Cheater [what a name for a chess player!], Vincent, Read, Parsons, Gonnason, Gibson, T. Brown, Benson, Jenette, Curtis, Gibson [Gibson is listed twice, an error in the report?]." [*Daily Colonist*, Wednesday June 25, 1913. There is some indication that Marshall conducted the afternoon simultaneous blindfolded, but this is not confirmed.]

**Canadian Open** (Ottawa, July 13-20)

[Tournament website](#)

**Quebec Open** (Montreal, July 21-28)

[Details](#)

There is a large contingent of B.C. players registered for the CYCC, some of whom will be staying on for the Canadian and/or Quebec Opens. Live games and results will likely be available via the [Monroi](#) website – watch for details at the links given above.

**BI-WEEKLY BAFFLER** by Valer Eugen Demian

**Baffler #13**

Emanuel Lasker once said: "The hardest game to win is a won game!" White's attack on the kingside seems to be going well toward a win. Black has been trying desperately to muddy the waters, including with this last move 24... Ne4, attacking both White pieces: Ne6 and Qf6. You are White and your task is to find the quickest win, crushing Black's hopes.

#12 Answer:

Without help from his Knight, White is lost. This simple fact helps us discover the first move with ease:

**1.Nf4 g2** If Black tries: 1... Kg1 2.Ne2+ Kh1

3.Nxg3+ Kg1 4.Ne2+ White saves a draw.  
**2.Nh3** ... this is a simple move, yet full of potential. Going over all possible responses, we discover some unexpected resources for such a position:

**2... g1=N+!** Main line: one more twist looking like an easy win for Black.

If:

I. 2... g1=Q 3.Nf2+ Qxf2+ 4.Kxf2 stalemate

II. 2... g1=R 3.Nf2# White wins in unbelievable fashion

III. 2... g1=B 3.Nf2+ Bxf2 4.Kxf2 stalemate

The White King now fights alone with the last resources it has. Could it keep the Black King in the corner?

**3.Kf2 Nxh3+ 4.Kf1 Nf4 5.Kf2 Nd5 6.Kf1 Ne3+ 7.Kf2**

Yes, it can! The position ends in a draw. This was probably the most likely result you thought about at the beginning and still the road there was full of surprises.
