WORLD YOUTH CHESS CHAMPIONSHIPS

The 2002 edition of this junior age-category tournament (U10, U12, U14, U16, and U18 sections for both Boys and Girls) has just ended in Heraklio, Crete.

Twenty of our best juniors represented Canada in the 802-player event, and several of them were among the leaders in their respective sections: Dinara Khaziyeva placed 13th in the U16 Girls with 7/11, IM Mark Bluvshstein (U14

Boys) and Shiyam Thavandiran (U10 Boys) both placed 8th with 7.5 and 8 points respectively. Canada's best hope for a medal was Alina Sviridovitch (U10

Girls) - in the last round she played for the gold medal on board one.

Unfortunately she lost to eventual section winner Lara Stock of Croatia and had to settle for 5th place, still a remarkable performance.

B.C. was represented on the team by Fanhao Meng (U14 Boys) and Tiffany Tang (U12 Girls): Fanhao broke even for the event with 5.5/11, while Tiffany was at -1 (5/11). Here is a win by each of them.

Meng,F (2313) - Barbosa,H [B22]

Further games and results can be found on the official website, World Youth Chess Championships 2002, while WYCC 2002 has pictures and information from a Canadian perspective, thanks to Patrick McDonald.

BUGHOUSE NEWS by Ben Daswani

Unfortunately, only a worst-ever 9 players showed up to the November Open Bughouse Tournament... a mere 60% of the previous record low. Graham Sadoway won the November Open Bughouse Tournament with a score of 31/48. In second was Gavin Atkinson with 29.5 and in third was Ray Barrett with 27.5. The crosstable can be found at http://geocities.com/bughouse_bc/nov02xtable.html.

JACK TAYLOR MEMORIAL

We will have a report on this event in the next issue. However, the crosstable can already be viewed at Jack

Taylor 2002. Among those who tied for second is an unfamiliar name: Valeriya Gansvind is a women's FIDE master from Russia - stay tuned for more details.

JUNIOR GRAND PRIX # 3

Thirty-eight players took part in the third Vancouver Grand Prix event, held at the Vancouver Bridge Centre on November 24th. As before, the top half of the field were placed in quads and played three games each, while the remainder took part in a five-round Swiss. Winners in the quads were: Gavin Atkinson and Lucas Davies, Valentina Goutor and Lawrence Bau, Danny Yu and Nikhil Jain, Monika Prokopowicz and Lesley Cheng, and Steven Roller, Kevin Au and Lo-Ching Chow (three-way tie for first). Michael Wee came first in the Swiss with a perfect score, followed by Mihai Beschea on 4.0/5 and a tie for third between Alexandra Botez and Brianna Reid with 3.5. Congratulations to all!

Junior Grand Prix 3 Quad A Junior Grand Prix 3 Quad B Junior Grand Prix 3 Quad C
Junior Grand Prix 3 Quad D Junior Grand Prix 3 Quad E Junior Grand Prix 3 Swiss

Current standings in the Grand Prix are as follows:

Atkinson, Gavin 14.3
Davies, Lucas 11.0
Goutor, Valentina 10.9
Davies, Noam 10.6

Cheng, Lesley 10.6
Yu, Danny 10.0
Chow, Lo-Ching 9.5
Almasan, Ovidiu 8.9
Kostin, Andrey 8.7
Young, Bryan 8.4
Sum, Peter 8.1

Participants count their best six scores from the eight Grand Prix events to be held, so there is still plenty of time for the standings to change. The above players have played in all three of the events held so far, other players will close in on their scores as more events take place.

READER'S GAME

Reader Paul McNichol submitted the following game, played in a recent UBC Tuesday Night event:

"In this tournament (I won the Under 1800 Division) I played perhaps one of my best games to date. . . I found move #19.Ne6+ interesting since I thought intuitively that it was the correct move. I do not have a mating attack as of yet, and I do not win any material (so in a sense, it is a true sacrifice), but I felt it was correct, because Black's Queenside pieces had not been developed, and White's pawn on e6 would be very strong positionally."

McNichol,P - Hardy,J [B80]
UBC September Vancouver (3), 17.09.2002

THIRTY YEARS AGO by Bruce Harper

Today, as was the case 20, 30 and 50 years ago, players tend to place more emphasis on openings than on endings. Opening books outsell all others by a wide margin, and players tell themselves "if I really know this opening, I won't have to play an ending - or a middlegame, for that matter!"

But interesting things happen in endings. A startling example was Robert Zuk's experience in the 1972 B.C. Open. Zuk, as everyone should know, was long a powerhouse in B.C. chess, and was one of Canada's top players in 1972.

But luck was not with him in the 1972 B.C. Open, where he ran into not one, but two stalemates! And by "stalemates" I don't mean the "draws", as uninformed laymen often use the term, but the real thing.

In the first game, Zuk had Black against Richard Pomfret, who had been outplayed in what I believe was a King's Indian Defence. Black is two pawns up in an opposite-coloured bishop ending, and while the pawns are doubled on the h-file, Black's more active king and bishop makes you think there is a win there somewhere.

Zuk played 1...Bg3+ 2.Kf1 (the king obviously can't go the other way, as Black plays 2...Kf2-g1) Bh4. Now it looks like zugzwang, as White's king can't move and the bishop has no safe square. But after 3.Bf3!, Black is stuck, because 3...Kxf3 is stalemate!

Lightening struck again later in the tournament.

Here Zuk, again playing Black, had good winning chances against Alan Hill. I noted in my column that this was an adjourned position which was played out immediately after the conclusion of the Pomfret-Zuk game, "for the benefit of any psychologists who are interested".

Black's winning plan consists of advancing his passed pawns and winning a rook by mate threats. If White's rooks don't remain connected, they will be vulnerable to Black's queen. The first step for Black is to centralize his queen, but Zuk ignored this general principle in favour of the immediate 1...g3?, only to run into 2.Rg7+ Kf4 3.Rd4+ Ke3 4.Re7+! Kf3 5.Re3+! Kxe3 6.Re4+ Kf3 7.Rf4+, with either a stalemate (if the rook is captured) or a perpetual check (if it isn't). I leave it to you to confirm that neither 2...Kh6 nor 2...Kf6 changes the result. Black's problem was that his queen was on a poor square and could never capture White's annoying rook, lifting the stalemate.

In both of these games, you'll notice that White had no pawn moves available to him. Stalemates can arise even when the weaker side has pawns which can move, but very rarely (because the pawns have to use up their moves in some combinative way). If your opponent has no pawn moves, watch out for stalemate! Beginners should always leave their opponents some pawn moves (rather than taking them), but everyone has to watch for stalemate tricks.

Fairly recently Tiffany Tang let slip a winning rook ending against Valentina Goutor by allowing a perpetual rook attack (as in Hill-Zuk, although Hill had two rooks!), so nothing has really changed in the last thirty years...

B.C. - WASHINGTON MATCHES

Due to their proximity and relative isolation from other major chess centres, there has always been a (generally!) friendly rivalry between players from British Columbia and the state of Washington. For many years this rivalry has had an official outlet in team

matches: from the mid-1940s onwards a large annual match was held, sometimes on 50 boards or more. That particular series died out in the early 1960s, but was revived in 1985 as an individual match between the B.C. and Washington champions (or representatives), played on the large set at Park Royal Mall. This ended in 1992; instead we now have an annual junior match, with two players from each grade (1-12) squaring off against their respective counterparts from the other country. This year's event takes place in Seattle on December 7th, and we wish our twenty-four member team the best of luck as they attempt to repeat their winning performance from last year.

One of the more unusual B.C. - Washington contests took place in 1968 - unusual, in that it was conducted by radio. Willie Skubi (Washington) set up the match, using the facilities of ham radio operators John Solbakken (Seattle) and Bob Eldridge (Vancouver). Seattle had requested the strongest possible opposition, so Eldridge lined up Duncan Suttles, Bob Zuk (replacing Elod Macskasy on short notice) and Tim Anderson. The Vancouver players won the match fairly easily, with a final score of 2.5-1.5.

"The game on board 1 went on after the other two had finished. Pupols was in trouble with a bad position and six moves to make in 3 minutes to the time control. He made them with full 40 seconds to spare, but by that time was dependent on some kind of a swindle to pull it out of the fire"

Pupols,V - Suttles,D [A42]

". . . on board 2 Bob Zuk mounted a crushing attack with a remorseless squad of peons pushing Jeff Fox back into his field . . . Bob noted afterwards: 'I think Black's 6-7-8 moves premature - he should castle. On move 17 Black should take the pawn. After White's 18th Black is lost.'"

UBC Tuesday Night Swiss - November - December 2002

Dates: November 12th, 19th, 26th, December 3rd, 10th

Place: UBC Student Union Building, Room 211

Rounds: 5 round Swiss System (one round per week)

Time: Round 1; a.s.a.p. after 7pm, Rounds 2-5; 6:30pm
Time Control: 40 moves / 90 minutes, game / 60 minutes
Entry Fee: \$15, \$12 UBC CC members (available at site), \$8 juniors, \$Free to masters and those joining CFC/BCCF for the first time

Registration: 6:30 - 7 pm before round 1

Prizes: Based on entries (\$\$BEN)

Org & TD: Lyle Craver (604)980-2040

Misc: half point byes available for rounds 1-4 when requested at least 24 hours before game time (in person or by phone only please - no e-mail bye requests!) Please bring sets, clocks, etc.

Saturday Chess Fever

Date: Nov. 16, 23, 30, Dec. 7, 14
Location: at the Bridge Center 2776 East Broadway, Vancouver
Rds: 5
Type: Regular Swiss, 2 sections Open and Under 1700
Time: Games start at 5:00p.m.
Time Control: 30/90 G/60
Entry Fee: \$25, \$20 for Juniors and Masters
Prizes: \$\$ BEN
Org: James Kerry (604) 438-7666 and Luc Poitras (604) 438-0496

Northshorechess.com CM Invitational

Date: Nov.30-Dec. 1, 2002
Place: New Westminister, BC
Rds: 5
Type: 6-player RR
Round times: 9, 2, 7/ 9, ASAP
TC: SD 120

e]g urnament also decided the B.C. Junior Champion for this year: Lucas Davies. He won the title by virtue of achieving the best score by a junior, this with the proviso that the junior contenders were paired together in the last two rounds. Fittingly this took place in an event in memory of Lionel Joyner, since Joyner was Canada's representative to the first World Junior Championship in 1951.

Stephen Wright was the TD, aided and abetted by Katherine Davies.

Lionel Joyner Memorial

Here is a game by the Under-1600 winner (in all fairness, this was White's first tournament in many a moon, so he was a tad rusty):

WORLD YOUTH CHESS CHAMPIONSHIPS

Twenty Canadian entrants are expected in the 2002 World Youth Chess Championships, held this year in Heraklio, Crete. Among them are two B.C. players: Tiffany Tang (under 12 girls) and Fanhao Meng (under 14 boys). We wish the entire team the best of luck!

The opening ceremonies take place on November 14th, with the first round the next day. It is unclear at this point how much internet coverage there will be, but here are two possible sites to check out:

World Youth Chess Championships 2002 WYCC 2002

30 YEARS AGO... by Bruce Harper

Everyone likes a bloodbath, and that's just what you'll see in the game below, which was played in the 1972 B.C. Open. Stan Pakosta, who hailed from what was then Czechoslovakia, played Tchigorin's line against the French Defence - 2.Qe2. Black shouldn't be afraid of this move, and can even answer with 2...e5 (3.f4!?). Here Black went into some kind of Closed Sicilian, which is fine as well.

Black's problems arose when he mechanically developed and delayed his central counterplay too long. The formation adopted by Black is sound and aesthetically pleasing, but this didn't stop White from launching a dangerous attack with 11.h4!?. Even so, 13...d5! would have been a good illustration of the principle that "an attack on the wing should be met by a counterattack in the centre".

13...Bf6 and 14...Bxg5 were as bad as they looked. After Black traded off the one piece which was defending his king and opening the h-file, it wasn't all that surprising (except maybe to Black!) that White was able to finish off the game with a flashy sacrifice. It goes without saying that this is just the kind of game you want to play during a grueling weekend Swiss!

Pakosta,S - Pankhurst,J [C00]

JACK TAYLOR

Since the annual Jack Taylor Memorial will take place in Victoria shortly (see tournament announcements below), it is appropriate to examine the career of this former B.C. champion:

Taylor, John ("Jack") Monteith (July 11, 1907 - September 9, 1974)

Born in Scotland. It is not know when Taylor emigrated to B.C., but he first came to prominence in 1928, when he was described in the Victoria Daily Colonist chess column as "a promising young player." This promise bore fruit the following year when he won the B.C. championship. Taylor repeated this feat in 1930, 1938 and 1945, and also tied for first in 1953. He never made much of a mark nationally, always finishing in the lower half of the Canadian championships he played in, but Taylor did win a number of miniatures in these competitions due to his sharp eye for tactics ("His opening is scholarly with considerable combinative power in the middle game, is our verdict." - Thomas Piper). Taylor was a very popular player, and was instrumental in the development of the City Chess Club (Vancouver).
