VANCOUVER SEASONAL GRAND PRIX: SUMMER OPEN

The last event of the Seasonal Grand Prix took place at the Vancouver Bridge Centre (we think) on the weekend of June 25-26. No other information is available other than the crosstable, so here it is:

#	Name	Rtng	1	2	3	4	Tot
1	Andrey Kostin	1919	W11	W 8	W 2	D 5	3.5
2	Richard Ingram	2061	W 5	W 4	L 1	W 7	3.0
3	Ben Daswani	1947	W 7	D 0	L 4	W10	2.5
4	Louie Jiang	1879	W 0	L 2	W 3	D 6	2.5
5	Robert Hamm	1683	L 2	W 9	W12	D 1	2.5
6	Michael Yip	1999	D 0	D 0	D 0	D 4	2.0
7	Sterling Dietz	unr.	L 3	W12	W 8	L 2	2.0
8	Manuel Escandor	1815	W10	L 1	L 7	D 9	1.5
9	Vlad Gaciu	1784	D12	L 5	D10	D 8	1.5
10	Michael Wee	1321	L 8	W11	D 9	L 3	1.5
11	Thomas Witecki	1140	L 1	L10	W 0	D12	1.5
12	Alexandra Botez	1329	D 9	L 7	L 5	D11	1.0

More general information can be found at <http://www.geocities.com/vanseasonal/> , including the Grand Prix standings after the first three events.

CANADIAN OPEN PREVIEW

The Canadian Open starts this Saturday in Edmonton. Pre-registration is now approaching the two hundred mark, and with the participation of world and Canadian stars such as Vassily Ivanchuk, Alexei Shirov, Viktor Bologan, Alexander Moiseenko, Alexander Shabalov, Igor-Alexandre Nataf, Mark Bluvshtein, Dmitri Tyomkin, Pascal Charbonneau, Irina Krush, Thomas Roussel-Roozmon, and Eric Lawson, it should be an exceptional tournament. Recently, the entire Indian national team, both men's and women's, have also joined the event!

B.C. players who are preregistered include: Jack Yoos, Alfred Pechisker, Lucas and Noam Davies, Laszlo Tegzes, Vaclav Sladek, Edward Tang, Gavin Steininger, Slaven Mandic, Benjamin Kruger, Louie Jiang, Manuel Escandor, Hugh Long, Brian Davidson, Stefan Trandafir, Jim Marshall, Evan and Elliot Raymer, Brian Sullivan, Louis McCusky, Kevin Breel, Farley Cannon, Edward Enns, and Marvin, Kenneth, Caleb and Jeremy Meller. Good luck to all!

At this point it is not clear what sort of web coverage there will be of the tournament, but the webpage may be found at <http://www.edmontonchess.org/CdnOpen2005/>.

2005 MACSKASY MEMORIAL

This event is being held to honour the late Dr. Elod Macskasy, a UBC mathematics professor who was for many years B.C.'s premier player and a role model, friend and mentor of many of B.C.'s top players. The event will be held in the building in which he worked. Elod left us in 1990.

Dates: July 30-August 1, 2005 (Saturday, Sunday, Monday)

Location: Mathematics Building, 1984 Mathematics Road, V6T 1Z2, University of British Columbia.

Format: A series of 6-player round robins, CFC and FIDE rated, depending on registrants. Groupings will be determined by the higher of a player's FIDE or CFC rating at the date of that player's entry. For players who have neither FIDE nor CFC ratings, the tournament organizers will assign a notional rating based on the best information available as to that player's strength.

The top six rated players will play in the first group, the next six in the second group, and so on, subject to the qualification that the tournament organizers reserve the right to adjust the ranking of the players for the second and lower groups in order to ensure, if possible, that each group contains four FIDE-rated players so that the remaining two players in those groups will be able to obtain FIDE ratings. However, no player's ranking shall be adjusted by more than 50 rating points to achieve this goal.

Time Controls: 40/120, SD/60

Rounds: 5 (10 / 4 ; 10 / 4 ; 10)

Prizes: Group 1: \$200 (*first*); \$100 (*second*); Group 2: \$150 (*first*); \$75 (*second*). Remaining groups: \$100 (*first*); free entry to the 2006 Macskasy Memorial (*second*).

Entry Fee: \$35, \$25 for junior, seniors, and FIDE-rated players without titles, free for FIDE-titled players and 2005 WYCC competitors.

Registration: Mail cheques (payable to BCCF) to: British Columbia Chess Federation, PO Box 15548, Vancouver, BC V6B 5B3

Deadline: All entries must be **received** by Monday, July 25, 2005, 12:00 midnight. Because the round robin groupings must be made prior to the event, **registrations received after this deadline will not be accepted.**

TD: Stephen Wright

Organizer: British Columbia Chess Federation

Miscellaneous: CFC rated, top groups also FIDE rated, depending on registrants.

Contacts Jay Zhao wco2004@shaw.ca , Ben Daswani bndaswani@dccnet.com

ELOD MACSKASY (April 17, 1919 - January 21, 1990)

In light of the upcoming Macskasy Memorial, for the next few issue we will run some features about the life and games of Dr. Macskasy. Below we reprint an interview, first published in *Counterplay*, June 1990.

The 1961 BC - WA match: Dr. Macskasy on board 1, 15 year old Duncan Suttles on board 2

An Interview with Duncan and Dobrilla Suttles by Robert North

This interview was conducted with Duncan and Dobrilla Suttles in their comfortable penthouse suite located in the University Endowment lands. The interview lasted approximately one and a half hours.

Counterplay: When did you first meet Dr. Macskasy?

Duncan: Oh, it must have been over 30 years ago. I think I was 13 years old. I met him shortly after I learned to play. I started playing at the Vancouver City Chess Club and that's where I met him.

Counterplay: What was your first impression of him?

Duncan: Well, he was one of the leading players at that time. I think the Canadian Championship was the first time that we traveled together across the country by train ... I was 15 years old. I saw a lot of Doctor Macskasy from that time on. I can't remember exactly when I met him. It was probably at the chess club.

Dobrilla: Duncan's mother said about Dr. Macskasy that he was a second father to Duncan.

Counterplay: Both in chess and mathematics?

Duncan: Chess, mathematics, stock markets, bridge, a few different areas. You know besides chess, one of his main interests was speculating in the stock market and he got me involved in that and eventually I became a stock broker. Also, I played bridge, but not very much.

Dobrilla: The news of his death was a tragedy. He would help people out, people like myself, he liked everyone.

Counterplay: Surely he must have had some bitter memories of Hungary.

Duncan: He had some. He would have had some bad things to say about certain political systems, but he was friends with almost everybody.

Counterplay: I gather from not only what you said, but also your tone, you felt quite close to him. Was he very supportive, kind and considerate not only to yourself and your wife but to others as well?

Duncan: I think he was, yes. He was very much involved in the chess arena, especially with the younger players. He would look after them and they would visit his house.

Dobrilla: You know Bruce Harper, when Bruce Harper was growing and learning to play chess he would visit the Doctor's house and play till late at night. He would drive Bruce home rather than let him walk home in the dark.

Duncan: He was the kind of person who had time for everybody but was never on time.

Dobrilla: That was a general joke. A lot of chess players grew up under his wing, Duncan, Peter Biyiasas, Bruce Harper, all those chess players grew up under his shadow and more or less he influenced every single one of them. I know he influenced Duncan.

Counterplay: In what sort of direction?

Dobrilla: A very positive direction. In chess, he would guide them. Duncan was left here (at the university) when his parents moved back to the United States. Macskasy would look after him like his own child. You know, he would try to look after him, make sure that he had at least one good meal a day, that he had clothes. He would buy Duncan clothes, just like his own child. In the first two years of our marriage, his wife would go to the Safeway to buy food for her family of five and would have another bag for a family of two, the two of us. Whatever she cooked for herself, she cooked for us. I mean you can't find that anywhere in the world. When he died, I lost a father for a second time, that's what I felt about it. And Duncan felt like he was his father too.

Counterplay: Was Dr. Macskasy involved in organizational efforts on a larger scale, was he involved in the CFC or the BCCF to any extent?

Duncan: I guess he was off and on, I don't know.

Counterplay: Were his efforts directed more towards individuals than, say, organizations?

Duncan: I would think so.

Dobrilla: Definitely.

Counterplay: Is there anything more you would like to say?

Duncan: I should say it was a pretty special relationship for me. He never would say no. He had a very wide circle of friends with different interests and he always seemed to manage to visit them and do things with different people. He was very active.

Dobrilla: To the last day. He never sat down, not for a minute. He still did, in the last day of his life, like he did years ago when I arrived. He was playing chess, he was still teaching at the university, he was collecting stamps, he was trading on the stock market, he lived everything to the fullest, he did not slow down, he lived his life full. He was happy. He was a very happy person.

Counterplay: That's a pretty full life.

Dobrilla: That's right. He met lots of American chess players. He played lots of them and entertained them at his house. Bobby Fischer visited him and Mark Taimanov.

Counterplay: Was that in 1971 during the Candidate's match?

Duncan: Yes, he was pretty well known around the world and respected.

Counterplay: As a player or as a host?

Dobrilla: Both, as a host and as a player. As a person generally.

Duncan: It will take a long time for us to get over it. It is not something you forget about in a day, in a year.

Dobrilla: When I met Duncan first and Duncan kept talking about Macskasy it took me about six months to realize that that wasn't his real father. And my family thought for a few years that was his real father.

Counterplay: How old was Dr. Macskasy?

Dobrilla: He was born in 1919. That makes him 71. He was a stamp collector and had one of the best stamp collections in the world. He had stamps from around the

world. I remember at one Olympiad in Europe he showed up at Customs with suitcases full of stamps. That caused some problems.

Duncan: We traveled to several Olympiads together. At one time I used to see him almost every day at the stock market. He used to come down there everyday and talk about stocks and how they broke. I guess that was the only place where I sort of went into something that he didn't have much interest in - computers.

Counterplay: What was his professional field?

Duncan: He taught various types of mathematics. Some of it had to do with calculus, some of it with geometry. I know he never did get involved with computers or anything like that. I guess it was too impersonal to attract him.

Dobrilla: He tried, he came around to talk with Duncan about it to get a computer, but he never did. He believed in the human touch.

Duncan: It was the intuitive element, rather than the calculation that he liked. You know, play by feel.

Counterplay: So he was a player in the Emanuel Lasker mold?

Duncan: Yes. He was a player that would feel a good move and make it without too much thought to calculating all variations.

Counterplay: Your lives were really intertwined with Dr. Macskasy.

Dobrilla: I've never known Duncan to have a greater respect for anyone alive or greater feelings. Whenever Duncan needed something, he was there.

Duncan: Well, I guess the one thing that he taught me is to not take things too seriously. In other words, he was a person that was able to step back and see things without getting involved, you know, caught up. Playing the stock market... it had its ups and downs but it wouldn't bother him. And the same with chess ... I think that was a very valuable thing, and some players have never learned that.

THE SCHWENGERS FAMILY

As a relatively young province, British Columbia has always relied heavily on immigration in its development. This is also true of B.C.'s chess community - many of our players began their lives elsewhere in the world (e.g., John Ewing, Jack Taylor, Miervaldis Jursevskis, Elod Macskasy, Duncan Suttles, Peter Biyiasas, Jack Yoos). One of the earliest chess immigrants to this province was Peter (Joseph Antoine) Schwengers (1844-1898), who came to Victoria in 1887. Born into one of the most influential families in Rhenish Prussia, Peter was the third son of a sugar refiner from Urdingen, Germany. A graduate of Bonn University, Peter Schwengers lived for a time in England, where he was associated with the London banking firm of Buninger, Schroder & Co. After emigrating to Canada he worked as an accountant, and was just fifty-four when he died suddenly of an aneurysm in 1898. Schwengers was a strong amateur player whose historical rating has been put at 2280-2300 (see <http://members.shaw.ca/edo2/players/p246.html>). He played in two knockout events in Düsseldorf in 1863 and 1864, in both cases reaching the second round before being eliminated. He was also proficient enough to conduct eight blindfold games simultaneously, and at least one (mediocre) chess problem by Schwengers has come down to us (see <http://www.bstephen.freeuk.com/recons/recon0001.html>).

Schwengers had five children, at least two of whom were also chessplayers, Conrad (Peter William) (1874-1954) and Bernhard (Peter) (1880-1946). Peter and his two sons did much toward building up the Victoria Chess Club in the 1890s. In the international cable match between Victoria and San Francisco in 1895, Conrad and Bernhard were part of Thomas Piper's consultation team on board one, while Peter helped James Hunnex on board two (<http://www3.telus.net/public/swright2/cablematches.html>). There is also record of a tournament at the Victoria Club in 1896 which Conrad won with a 19-0 score, ahead of Bernhard who tied for third.

Conrad and Bernhard were both prominent members of the hardware business. In 1888 Conrad "ran home two miles to tell of his good fortune" in joining the E.G. Prior hardware company, starting as an office boy at \$20 a month. By 1908 he was a junior partner, in 1921 he was appointed managing director, and in 1924, along with Bernhard, he bought out the company. After an amalgamation to form McLennan, McFeeley & Prior Ltd. in 1928, Conrad became managing director, and in 1944 he was elected president of the company. He retired in 1951, having spent sixty-three years with one firm.

In later years Bernhard was the Island branch manager and director of McLennan, McFeely & Prior and was also much involved in community work and publicizing Victoria, but as a young man he was known mainly as a sportsman. An outstanding tennis player, Bernhard was on Canada's Davis Cup teams in 1913 and 1914 and won the Rogers Cup in 1911 and 1912, an title which in recent years has been held by Lendl, Becker, Agassi, Rafter, and Federer. He was an inaugural inductee to the Tennis Canada Hall of Fame in 1991.

Bernhard was also Northwest seniors' golf champion, a noted ball player, and a huntsman. Of his chessplaying skill there is only one unfortunate example: he was the victim of the so-called Blackburne Shilling Gambit (1.e4 e5 2.Nf3 Nc6 3.Bc4 Nd4 4.Nxe5 Qg5 5.Nxf7 Qxg2 6.Rf1 Qxe4+ 7.Be2 Nf3#) at the hands of the visiting Joseph Babson at Victoria in 1896.
